## Manifesto

Ladies and Gentlemen, professionals at large I am here not to waste your time by saying “I Will” but rather value your time by saying “We Will” achieve this together as your ICTAZ Northern Region Chairperson.

ICT knows no borders nor boundaries and links us together, with us ICT professionals at the core we can do more than the current status quo. Today’s advancement in technology has ICT at the core as an enabler, you are enablers and with the intelligent minds of ICT professionals reading this right now our job is to continue from here and change the narrative, therefore Let us Unite, Let us Collaborate and Let us Innovate together!!!! , When I say let us change the narrative this is what I mean; Collaborative leadership with an agile approach from the top down.

Am here not to compete but to be a team player, collaborative teammate, and an enabling leader as a Win for ICTAZ is a Win for us and a Win for our profession.

It’s a passion and service for me to serve ICTAZ for the benefit of us all professionals, therefore make that vote count by voting me in as ICTAZ Northern Chairperson on 5th April 2024 to together build and take our Association forward.

## Manifesto

### WHY VOTE FOR ME?

Vote for me to foster and achieve the following initiatives and deliverables:

#### • Collaboration

- First will be for us ICT professionals to get to know each other within the Northern Region. A foundation of any association is people, people knowing each other and forming relationships which form greater bonds and from there cognitive ideals, targets, and goals. This is where collaboration takes course and kicks in. Appreciating every ICT Professionals talent, Skill, expertise and looking at how best and where best it can be applied to assist move the ICTAZ agenda and mandate forward.
- Collaboration not only between ICT professionals only but between companies, organizations, universities, and business within various sectors in the country and region at large.
- Collaboration that helps grow Initiatives to help build innovative grown/existing ICT solutions to various challenges that different sectors may be facing that in turn improve on productivity & performance, increase health & safety, and reduce cost in our various sectors whilst increasing revenue. This is what sets us apart and gives us an opportunity to be at decision-making tables.
- We shall continue to build our collaborative relationships between various key industry sector players and our ICT professionals within the Northern region to grow on opportunities.

## Manifesto

### WHY VOTE FOR ME?

#### • Marketing, Networking & Building Partnerships

- We will grow our ICTAZ chapter for the Northern Region and bring about programs that will have our ICT professionals give back into the community in terms of ICT awareness and Training, ICT Job Fares to help build database of local skill and talent available in the region. This will then help pave the way to build or setup an ICTAZ Northern Region Office which will attend to the needs of our ICT Professionals.
- We will build partnerships that will foster donation of ICT Equipment to local schools to help foster access and usage of ICT Products & Services.
- Increase publicity in magazines, newspapers, trade expos on ICTAZ Professional achievements, solutions, products & services by working with supporting partners.
- Promote local registered ICTAZ ICT Suppliers and Businesses offering various ICT solutions to our business partners, companies and organizations within the Region and country.
- We will increase participation in local trade expos and events most importantly, and external trade expos and events where possible. This will help us Market ICTAZ even further and help foster opportunities for partnerships with various organizations, businesses and companies within the region and country at large. Remember effective collaborations act as building blocks to building effective and collaborative partnerships.
- We will forge deliberate strategic partnerships with ZICTA, ISACA, EIZ in our field of ICT which will help increase growth, collaboration and awareness within the country.
- We will structure deliberate scheduled and planned calendar events for student chapter meetings and mentorship programs with different University's, Colleges and trade schools across the Northern region participated and led by different ICT Professionals within the Region.
