A fresh face, a fresh start!!

Stanley Ziwa holds a Degree in Computer Systems and Networking (Greenwich Uni.), Dip. In Computer Studies (EHCAAC) & CCNA Certification. A bright, talented and ambitious ICT professional with a strong technical background and possesses self-discipline & high moral principles. I'm action oriented with Proven leadership skills spanning way back as 2015 where I have risen through the ranks at the Zambia Revenue Authority workers Union. This began with being a Branch Chairperson, then National Trustee in the National Executive, and currently the Vice President of the Union. I am an ICT professional who has been in the ICT industry for over 16 years. In these years, I have gained vast and valuable experience in the ICT sector spanning from Technical support, ICT Education Sector, Project Developments, Digital Marketing Initiatives etc. Time is now! and I feel I am ready to contribute to the decision-making processes through ICTAZ executive in the interest of the general membership for the benefit of developing the association which in turn will also contribute to national development.

Fellow Collogues, I have watched from the sidelines for long now and time has come for me to activate and showcase my skills on the playing field and be part of the ICTAZ Executive whose mail goal is to foster the association forward by providing leadership and guidance on technical matters and professionalism in the ICT space.

We have all seen the shortcomings in the past, and we need to act to mend them. It's all about team work. No man is an island. I'm ready to work with any of the to be elected people to the executive to achieve a common goal. This will be well achieved with consultation and support from all members in the ICT fraternity.

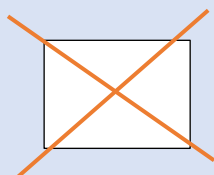

At this point, I cannot promise you heaven on earth because Several stories have been said before, but alas!!

My commitment to you is that; I promise to serve the association with diligence, to serve with integrity, to serve with transparency, accountability and prioritize your well-being through inclusiveness. I'm ready to step down in my 1st year of tenure if the difference between my absence and presence in the Executive is not positively felt by the general membership.
